
a
Warm in one half of the years: Tmax excess in the other half
544 of 560 testable grid points warmer in the other half
30° N
0°
30° S
−2.5 −1.5 −0.5 0.5 1.5 2.5
Tmax excess in the other half (K)
Warm in one half, not testable in the other
Not warm in either half
Few storm days
b
r = 0.77
2,171 grid points
Excess, even years (K)
Excess, odd years (K)
c
Found with odd years
Found with even years
Not significant
Warm regions: 42 of 44 same sign,
29 significant
Cool regions: 33 of 33 same sign,
23 significant
Excess over analogues, other half (K)
Map change of the region in the half that found it (K)
